

Justin Bieber and Selena Gomez Split Up?

The Biebs and his teen pop girlfriend, Selena Gomez broke up after dating for almost two years. Selena claims it was because of trust issues. We have an exclusive diary entry that JB wrote himself the day they broke up.

"Dear Diary,

Today has literally been the worst day I've had in a long time. Selena broke up with me ☹️ (I don't know why, I don't know what I did wrong. I tried to be the best boyfriend I could be. She says she doesn't trust me and our schedules are too crazy right now.¹ How do I prove to her she can trust me?? IDK what to do. All day today all I could think about was her. I messed up everything at rehearsal. I

could not focus on what I had to do. I wasn't getting any of the steps right, and I wasn't even hitting the notes right. So annoying. I should have known something wasn't right. When I called her this morning, she was so quick to get off the phone and she just didn't sound like herself. I'd do anything to fix things with her. My manager tells me I have to move on and I can't let it affect my career. I'm going to try to not let it affect it. It

just sucks. idk if i'll find someone else like her <3"

The Biebs seemed so shaken up by the break up. But not for long, he seemed back to normal when he performed at the Victoria Secret Fashion show, a few short weeks after the break up. Being surrounded by a bunch of models, who wouldn't want that?! His acoustic version of *As Long As You Love Me* had all of the ladies going crazy.
